Chapter 1: Introduction of SolidWorks..... http://www.dezignstuff.com/blogix I would like to acknowledge the efforts of Wiley's staff for their dedication in editing the text of these books. Wiley publishes in a variety of printed and electronic formats and on demand printing. In addition, the text of the book is increased by video tutorials with the voice on off of author that can be found in the website. solidworks is the main program of CAD 3D, and the previous edition of this book has sold more than 33,000 copies of information necessary to provide beginners a solidation of beginners in The software, which includes piece modeling and assembly and 2D drawing techniques, is based on a wide range of advanced themes. The technical editor of Minner Edward L. In addition, readers should be aware that Internet websites in this work may have changed or disappeared between when this work was written and when it is read. http://www.wiley.com Credits Senior Procurement Editor Stephanie McComber Editor Martin V.
